

CONSTRUCTION DIVISION

WORK ZONES AND MAINTENANCE OF TRAFFIC

2021 Update

 Jeremy Kitto P.E and Jason Archer

Work Zones reviews by CQIP Team

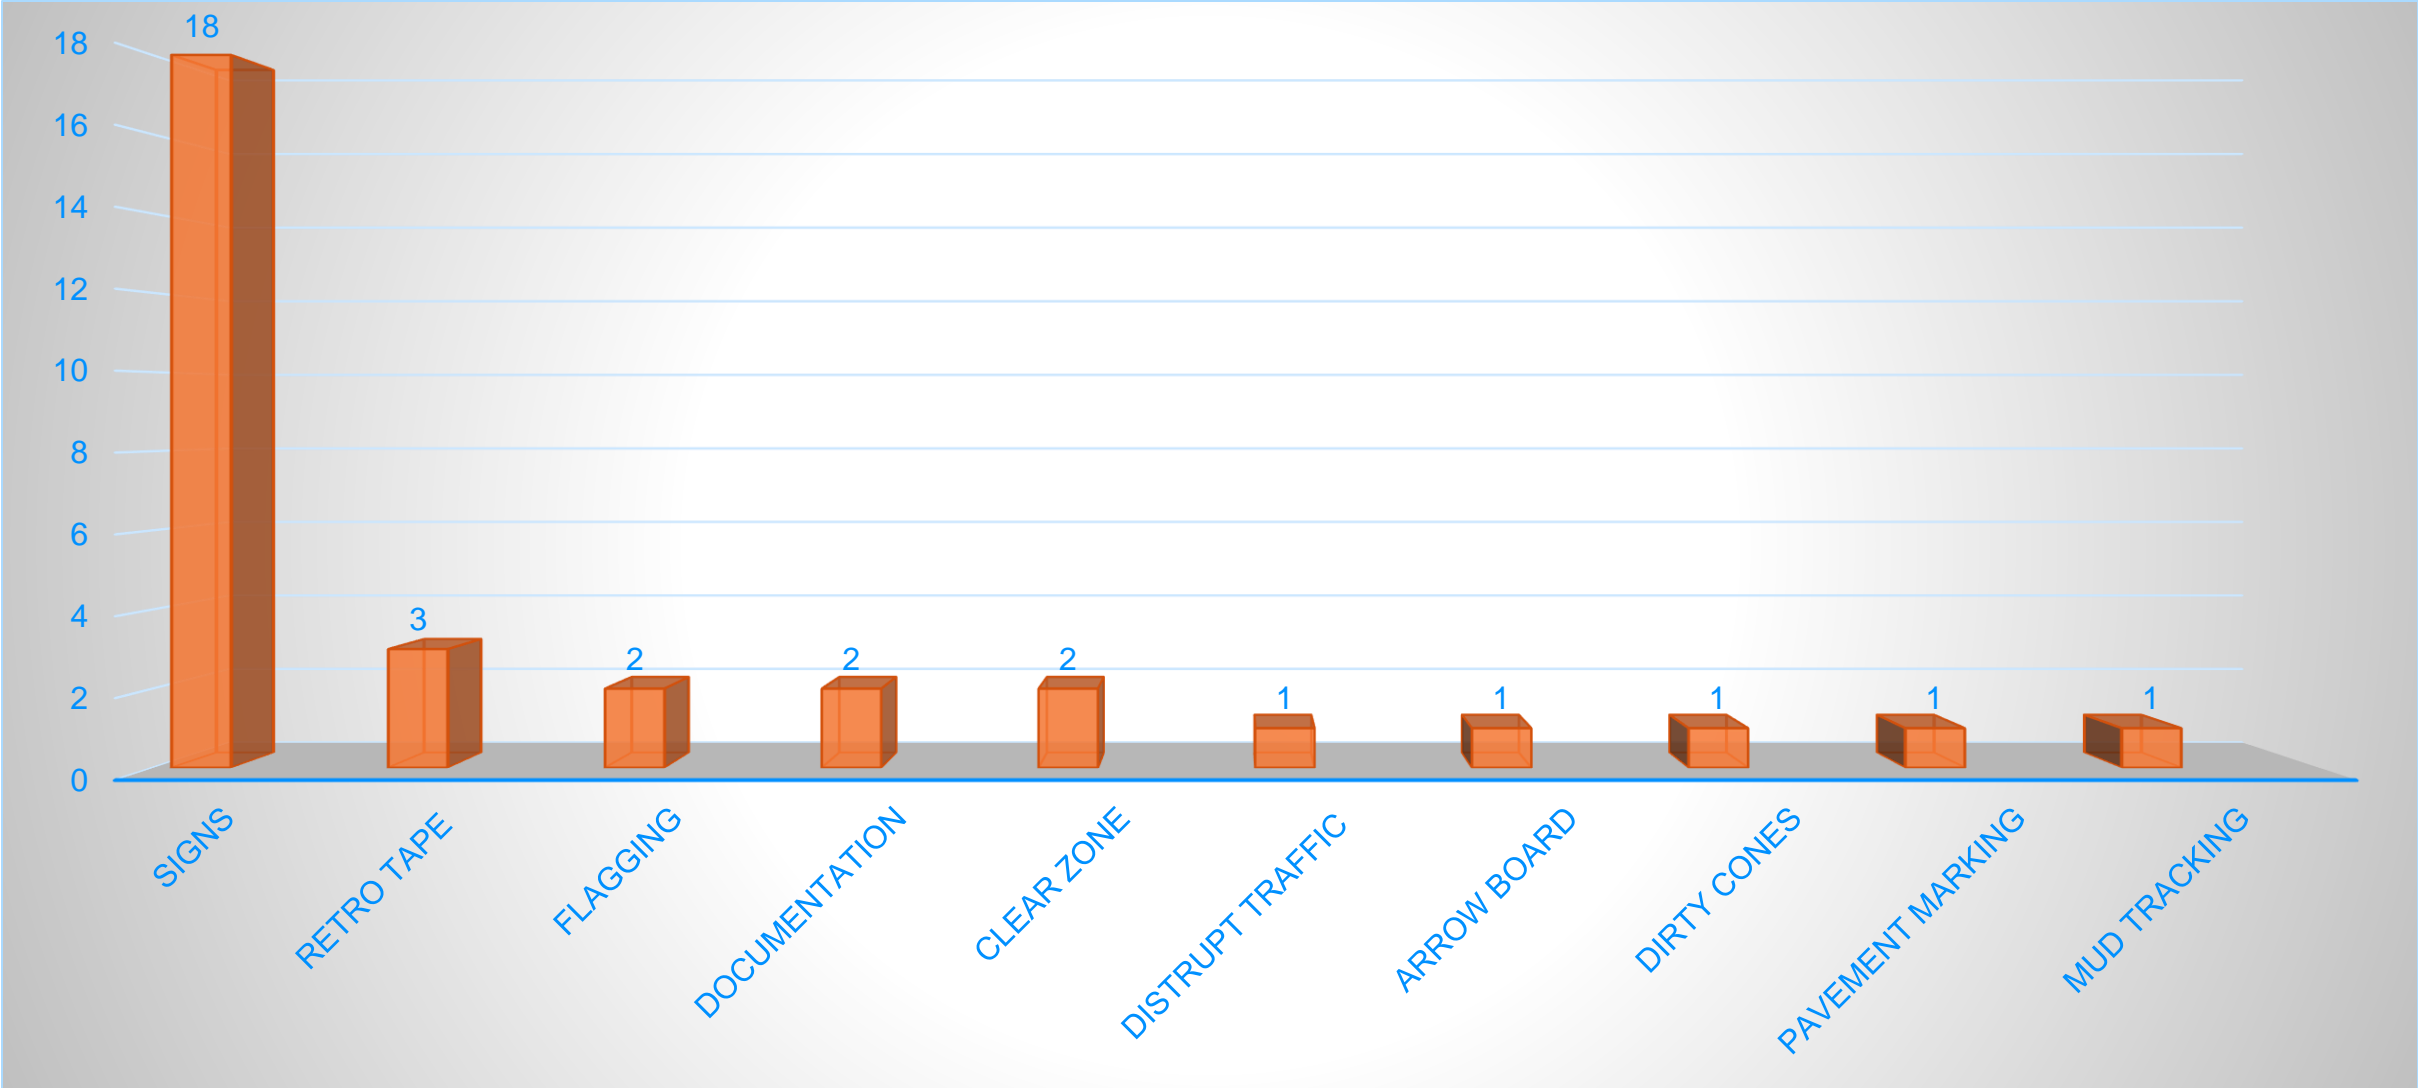

- **Work Zone Checklists**
- **Compliance with Contract Plans & Documents**
- **All certifications are in compliance and updated**
- **Visual inspection of Traffic Control Devices**

Statewide Compliance by Spec. Book Section

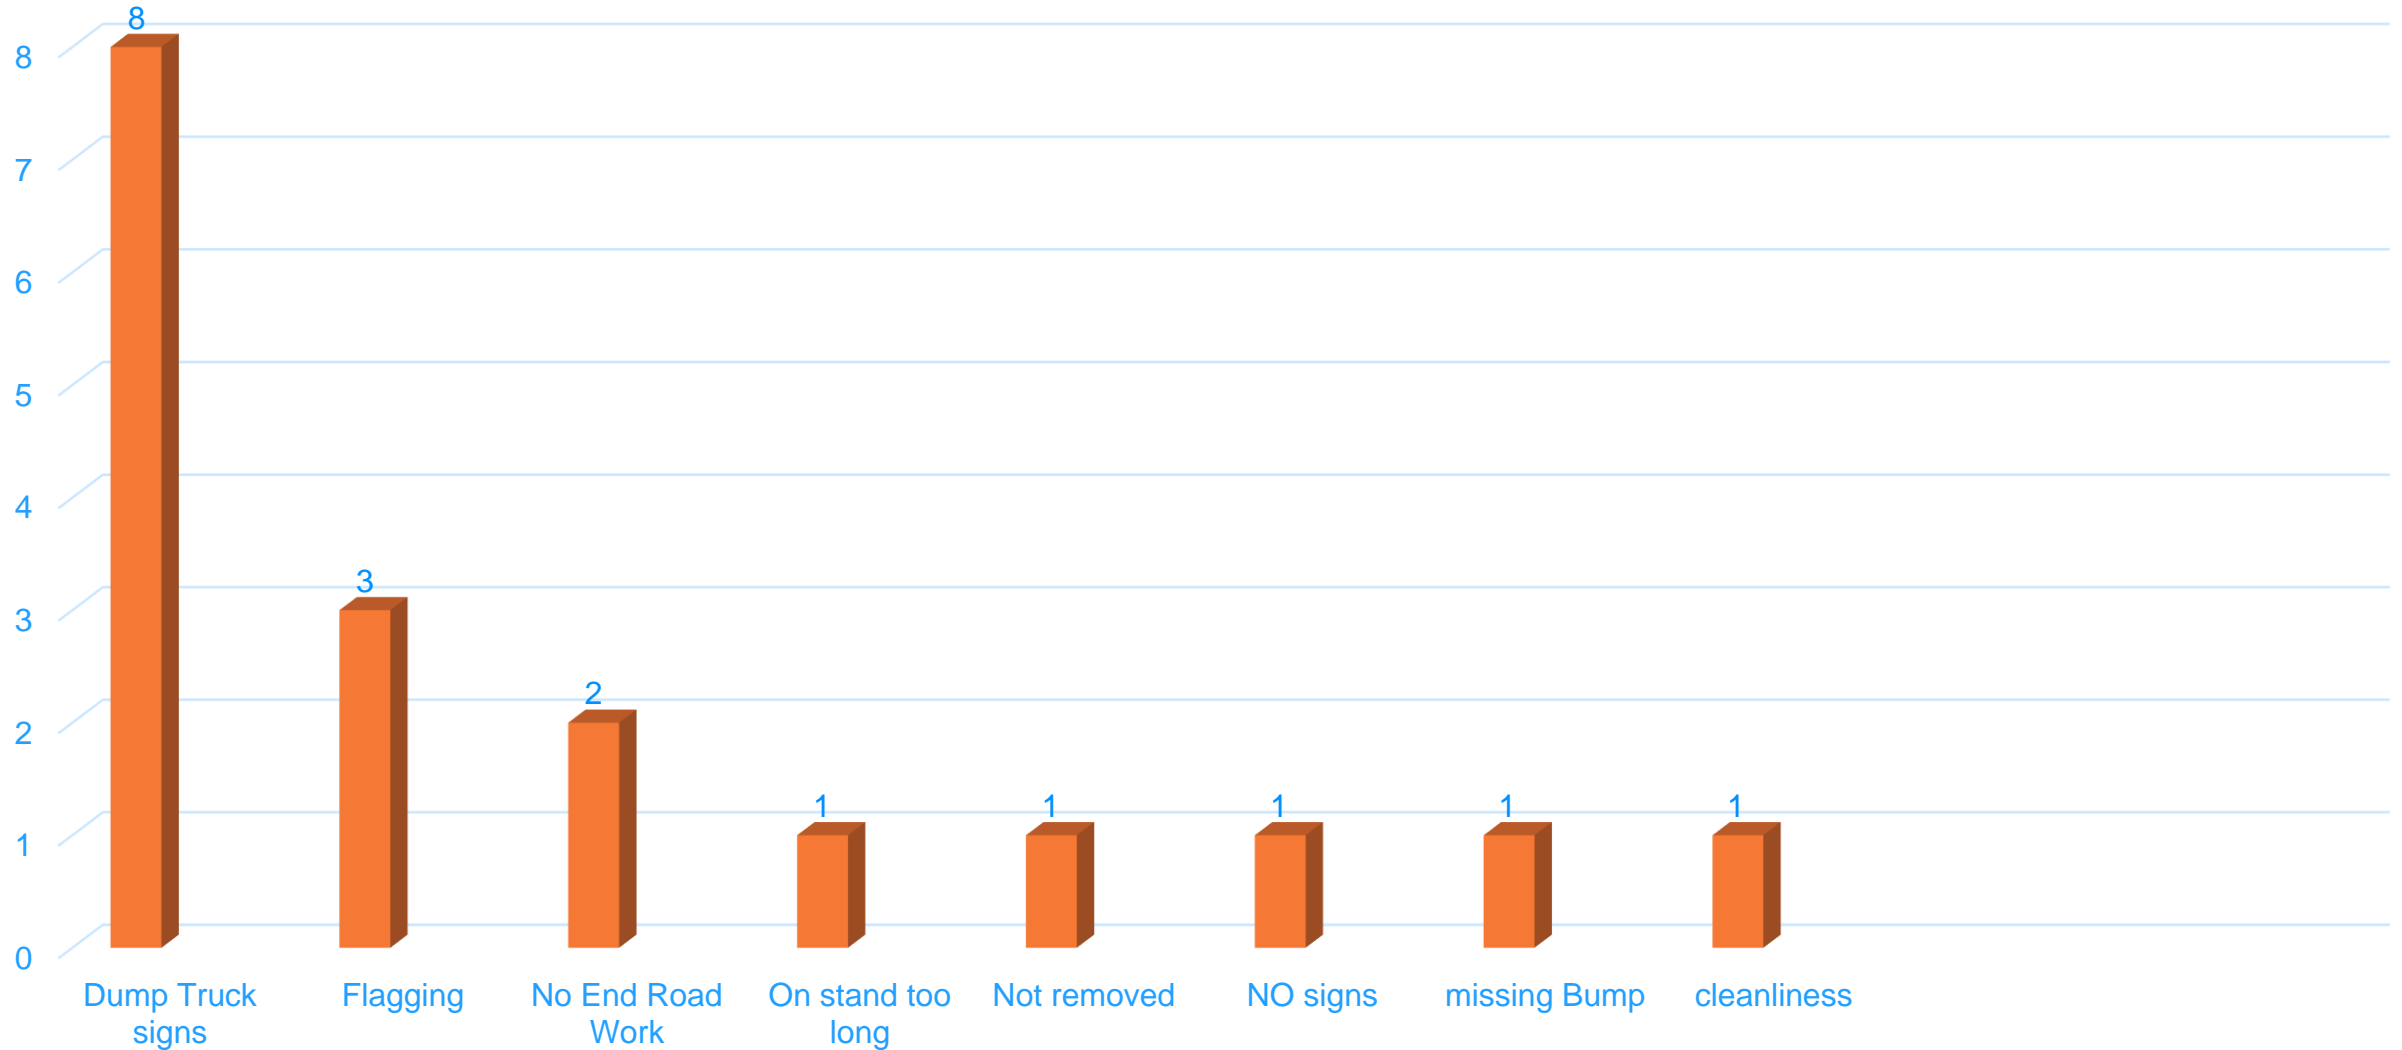

There has been a decline in Maintenance of Traffic and Work Zone related scores from last FY to this FY so far.

Fiscal Year of review	<u>2018</u>	<u>2019</u>	<u>2020</u>	<u>2021</u>	<u>2022</u>
Maintaining Traffic	88.0	88.0	90.9	92.9	86.4

CQIP Work Zone NON Compliance for Paving Projects FY 2021

Sign Non Compliance Breakdown

Over all CQIP Data Findings & Recommendations

- **32 Non compliant items identified in Work Zones on Paving Contracts this construction season during CQIP reviews.**
- **More than half of those Non Compliances relate to signage.**
- **Ensure proper installation and maintenance of the signage.**
- **More frequent site ride through/inspections.**

Flagging

Driver Inattentiveness and Your Safety

- **Frequently Drivers are distracted while driving in some fashion and not attentive to work zones.**
- **The best practice when working next to open traffic is to always be aware of your surroundings.**
- **Never turn you back to traffic and if you have to for any reason designate a traffic spotter to provide warning of any potential errant vehicle.**

Closing

- **Safety has to be the first priority on every site.**
- **The Work Zones and devices are our first line of defense against traffic**
- **The lack of routine Work Zone traffic safety site inspection and maintenance has been the main reason for non-compliant findings.**

Thank you all and be Safe out there!
